

SYED ALI ABBAS

Web Developer | AI Automation Engineer

+92 337 4588217 | sali51214ali@gmail.com | github.com/syed-aliabbas-dev

EDUCATION

Bachelor of Science in Computer Science (BSCS)

Lahore Leads University

2023 intake | In progress

PROJECTS

ThesisGuard AI | Academic RAG Assistant

github.com/syed-aliabbas-dev

- Engineered a RAG application that ingests PDF and Excel thesis files, cites supporting sources and offers configurable retrieval controls for reviewing academic material.

MarketMind AI | Multi Agent Business Research

github.com/syed-aliabbas-dev

- Designed a multi-agent research platform that structures analysis plans, validates evidence and tracks costs, with human review before report publication.

FinWise AI | Financial Analysis Dashboard

github.com/syed-aliabbas-dev

- Built a financial-analysis dashboard that examines monthly finances and generates AI educational insights with clear investment-advice limitations.

MediGuide AI | Health Information Dashboard

github.com/syed-aliabbas-dev

- Implemented a dashboard that collects patient details and provides AI-generated general symptom-assessment guidance through a structured interface.

Sports AI Assistant | Streamlit Application

github.com/syed-aliabbas-dev

- Developed a Streamlit assistant answering questions about sports, training, equipment, techniques, competitions and company products.

Sunday | Digital Magazine

sunday.com.pk

- Digital magazine covering fashion, beauty, lifestyle, entertainment, events and sports.

Orlando Web Pros | Agency Website

orlandowebpros.com

- Agency website presenting web design, WordPress, e-commerce, SEO and maintenance services.

SUMMARY

AI developer with two years of freelance and employment experience in AI and web development. Portfolio includes five AI applications spanning retrieval-augmented generation (RAG), multi-agent research and analytical dashboards. Technical focus: Python, large language models (LLMs), AI agents, API integration and workflow automation.

SKILLS

AI development

Python Streamlit

Large language models (LLMs) RAG

OpenAI Claude LangChain

Hugging Face

Agents and automation

AI agents Multi-agent systems

n8n Workflow automation

API integration Tool integration
